

Enterprise Architect | Solution Architect

Mobile: +201015930498 | **E-Mail:** mahmoud.abdelsattar.eng@gmail.com | **Location:** Cairo, Egypt

SUMMARY

Enterprise & Solution Architect with 12+ years of experience designing large-scale, multi-tier software systems across telecom, enterprise, and cross-industry environments. Expertise in **System Integration, APIs, Solution Design, BSS/OSS, ERP**, and **end-to-end** delivery. Proven ability to align technology with business strategy, lead cross-functional teams, ensure scalability, security, and compliance, and manage vendors and technical risks. Skilled in modern architecture practices.

EXPERIENCE

Telecom Egypt (TE Data) – Cairo, Egypt

Enterprise Solution Architect Section Head | **Mar 2024 – Present**

- Led **Digital Mediation, BSS/OSS and ERP integrations**, including **BSS upgrade** with **NBO/Churn AI models** to enhance customer targeting, retention, and predictive service recommendations.
- Authored **SDD** and **ISD** technical integration documents.
- Delivered **FVNO** onboarding, and automated its **service activation** workflows to reduce time.
- Led the architectural governance and Design of **Digital Mediation (DM)** for usage collection, **Kafka** event pipelines for real-time data flow and **push notifications** for customer engagement.
- Led **VoLTE Transaction Enrichment & Mediation**, Owned the enrichment data model for VoLTE service transactions from multiple ISPs, normalizing and enriching CDRs.
- Implemented **flexible configuration framework integrated with BSS** for rapid product rollout, and developed **exception handling** for complex cases like abnormal ownership transfer.
- Ensured **regulatory compliance**, coordinated vendors for delivery, and authored **technical documentation** to support scalable and secure system operations.

Ultimate Solutions ERP – Cairo, Egypt

Senior Technical Support Engineer | **Aug 2021 – Mar 2024**

- Configured **Onyx ERP** environments (POS, Mobile modules) ensuring operational stability.
- Designed data entity models for reporting; optimized database relationships.
- Developed and maintained **custom ERP reports** using Report Builder R6i.

Network International Payments – Cairo, Egypt

Senior Software Engineer | **Aug 2018 – Aug 2021**

- Led **Contact Application Development** for Arab African Bank.
- Developed and maintained **Custom Banking Applications** (Java, Python, Oracle).

Delta Software Corp – Cairo, Egypt

Junior Software Developer | **Jan 2015 – Aug 2018**

- Designed and optimized **SQL Server** database tables and queries.

- Developed and deployed ERP and educational software solutions.

Weider Egypt – Cairo, Egypt

Junior Software Developer | Jan 2012 – Jan 2015

- Built and maintained hospitality and web applications.
- Developed 3D animations using **C# XNA** and conducted system testing.

KEY PROJECTS

Event-Driven Notification & SMS Architecture – Led the architectural governance and design of Notification system, Kafka-based messaging platform integrating with Ericsson Digital Mediation and E-Care channels to support high-volume, real-time customer multiple communication channels.

Core Banking Migration (EuroNet → CP+) – Led migration enhancing features, reporting, and performance. *(Java, Python, SQL Server, PL/SQL Oracle)*

CMS Card Management System – Managed billing, chargeback, and card lifecycle operations. *(PL/SQL Oracle)*

Merchant Contact Report System – Automated POS purchasing and payment processes. *(Java, SQL Server)*

Delta School System – Automated educational management for 11 school grades. *(Delphi, Python, SQL Server)*

Credit Card Fraud Detection API – Deployed ML-based fraud detection using Random Forest. *(Python, Flask, scikit-learn)*

Stock Market Dashboard – Built interactive analytics dashboard for stock trends. *(Python, Dash, Plotly)*

CERTIFICATIONS

- The Open Group Certified: **TOGAF** Enterprise Architecture **Foundation**(Sep 2025),Credential ID: 194695
 - The Open Group Certified: **TOGAF** Enterprise Architecture **Practitioner**(Jan 2026),Credential ID: 194695
 - Epsilon AI Institute: **Machine Learning Diploma**(2020), Credential ID: EAII-100241-EG
-

SKILLS

Architecture & Design: Multi-tier Systems, Enterprise Integration, API Gateway, Microservices, ERP integrations, BSS/OSS architecture, Cloud (AWS)

Programming: Java (Spring Boot, REST APIs), Python (Flask, Dash, ML), Delphi, SQL, PL/SQL

Databases: Microsoft SQL Server, MySQL, Oracle (11g/12c)

Tools & Platforms: Git, Jira, Report Builder R6i, Toad, Intelj, Netbeans, Eclips

Testing & QA: Unit Testing, Integration Testing, Performance Optimization, Black/White-box Testing

Business Skills: Technical Leadership, Vendor Management, Stakeholder Communication, Agile (Scrum), Risk Assessment.

EDUCATION

B.Sc. in Software Engineering, Major Computer Sciences Department

Faculty of Computers and Information Sciences – Assiut University, Egypt (2011)
